**6. Evaluating Progress Toward Measurable Goals MCM 5**

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

**A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.**

The Town of Clay Highway Department has a work crew solely dedicated to inspecting and, if required, providing restoration and/or repair to the town's overland and underground storm water system. Additionally, the town's engineering consultant makes regular visits to the town owned and operated infrastructure to ensure continued compliance with the approved design and construction documents. Additional training/education opportunities for personnel was non-existent due to Covid 19.

**B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.**

The storm water infrastructure is operating at its design capacity. The occurrences of flooding and/or water quality violations are continually reduced and/or eliminated due to these efforts.

**C. How many times was this observation measured or evaluated in this reporting period?**

		1	6
--	--	---	---

(ex.: samples/participants/events)

**D. Has your MS4 made progress toward this measurable goal during this reporting period?**

Yes    No

**E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?**

Yes    No

**F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).**

This program and approach will continue through out the upcoming permit year. As the State recovers from the pandemic and educational/training programs are made available attendance from the town will increase in these programs.

How many MS4s contributed to this report?

**1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.**
